ELECTRICAL - MAINTENANCE FREE AGM BATTERIES

XS POWER ABSORBED GLASS MAT(AGM) MAINTENANCE FREE BATTERIES

Absorbed Glass Mat (**AGM**) is the latest in motorcycle battery technology. Sealed **AGM batteries** completely eliminate the hassels of conventional battery maintenance. **There is no liquid acid in the AGM battery.** All of the acid is absorbed into the compressed glass matting in the cells. **They are completely Non-Spillable, so they can be shipped by Mail or UPS with no hazardous warnings or extra fees.** They can be mounted in any position for special applications. Our **AGM** batteries re-combine the oxygen and hydrogen as the batteries charge and discharge to make them trully **maintenance free.** No liquid ever needs to be added, No leaks, spills or vent tubes. **AGM batteries** have higher cold cranking Amps and hold a charge much longer. An XS Power AGM battery is available for most of the popular motorcycle models made in the last 25 years.

AGM Batteries Feature

- Batteries are wet charged at the factory but contain no liquid acid.
- Absorbed Glass Mat (AGM) technology eliminates the need to add electrolyte.
- PermaSeal design of the AGM battery ensures leakproof operation regardless of battery's position.
- Built to withstand the demands of high-heat applications.
- Lower internal resistance reduces charging time vs. conventional wet batteries.
- Maintenance Free and Non-Spillable.
- Resistant to vibration damage for reliable performance even under rough off-road conditions.
- Engineered to meet or exceed OEM specifications to ensure exact fit and power needs.
- Slower self discharge rate means AGM batteries can sit for extended periods of time without constant monitoring. A conventional wet battery discharges 15% a month where our AGM batteries discharge only 2-3% a month.

XS POWER® AGM BATTERIES

The Latest in Maintenance Free Technology at a reasonable Price !

Batteries offered are the latest upgraded types available. These replace obsolete & discontinued earlier standard and maintenance free types which often had larger case sizes. Yuasa numbers shown are for cross reference only.
